Subject: Point Reyes National Seashore GMP Amendment Assignment clarification.

Hi Connell,

I am just reaching out on this project because it is a high profile project and we may benefit from my continued lead of the review.

I wanted to clarify that I am still the lead reviewer for this Point Reyes National Seashore GMP Amendment project. I noticed what I think was an error in CDX that it was assigned to Jason Gerdes. I am the lead reviewer for NPS and I have been working on this project since October 2017 regarding pre NOI.

I have also had contact with the project manager multiple times and coordinated with our water division on the project. In addition I sent a NOI LTR November 30, 2018. I also had the benefit of Kathy's visit to the project area and her insights.

Ex. 6 Personal Privacy (PP)

By coincidence I had just prepared the ELMS project sheet for this Point Reyes Project yesterday so I was surprised when I saw the CDX DEIS notification today.

Regarding my overall schedule the RDEIS - Sierra National Forest and Sequoia National Forest Plan Revision is due September 17th and I will have the draft letter to you August 12, 2019 per your direction. The Point Reyes DEIS is due September 23 so I think I could manage to get the draft letter to you but September 7th.

So I just want to avoid duplication of efforts so let me know if I should continue working this project or brief Jason on my work on it so far.

I know your calendar says you are out today and you are going to be off a few days or on travel soon so I have Cc'd Jason, Stephanie and the other management team members for clarification.

Hope this helps,

Jim M. Munson, NEPA Team
